THE ROYAL SOCIETY

BALLOT PAPER
Royal Fellowship

Instructions:

Please print this paper and indicate with a mark your support of the election of:

HRH The Duke of York KG GCVO

as a Royal Fellow of the Royal Society.

I **support** the election of HRH The Duke of York KG GCVO as a Royal Fellow of the Royal Society

I most certainly do NOT support the election of the Duke of York
.
He is an arms salesman with very suspect relationships in Kazakhstan, involving strong suggestions of bribery and corruption. He has reportedly been the subject of investigation by Swiss and Italian police for alleged "international corruption". And of course his association with Jeffrey Epstein brought yet more condemnation.
I can think of no worse candidate.
I also object to being presented with a ballot form that has only one option. That's the sort of ballot that would be expected in Kazakhstan or Saudi Arabia. I'm glad to hear from Paul Nurse that it will be changed in the future.
