

**The Esperanza  
NeuroPeptide Treatment  
Has Worked For Me...**

### Delighted Esperanza Patients' TESTIMONIALS:

#### **"From Wheelchair To Walking!"**

*In January 2002 I learned about the Esperanza NeuroPeptide from a trusted doctor friend of mine. In February of 2002 on route to see Esperanza, my mother had to push me in a wheelchair to the gate at the airport as it was such a long walk. After 3 days on the Esperanza NeuroPeptide I walked the same distances that I was unable to 3 days before!*

*After 7 years on the Esperanza NeuroPeptide, the quality of my life is not only more dependable, it is MORE! I can usually walk through most of the activities that I would like to. I can usually WRITE legibly (which I could not do by 2002), I can put mascara on without the incredibly shaky right hand I used to have and my SPEECH is no longer slurred. I have virtually lost all signs of fatigue and often, my balance is nearly perfect! There has never been a single side-effect. The difference that the Esperanza NeuroPeptide has made to my life is absolute. Nowadays I can expect to have "normal" days EVERY day. I don't see a wheelchair in my future because of the Esperanza NeuroPeptide. I thank all at Esperanza for giving me my life back these past 7 wonderful years! **Sandy W, North Carolina, USA.***

#### **"The Difference Is Amazing!"**

*I have been taking the Esperanza NeuroPeptide since the start of September 2008. The differences in my physical and mental abilities are truly amazing and since going on the Esperanza NeuroPeptide I hardly ever have a nap in the middle of the day! I am now able to spend quality time with my eight year old daughter. Although I cant walk, I am able to enjoy activities like card making and latch hook rug making. The strength I now have in my arms is incredible. I do the simple exercises that I was shown to do at the Esperanza clinic every day.*

*My parents have noticed a huge difference in my speech, it is very clear and a lot quicker since going on the Esperanza NeuroPeptide spray. In March 2009 my optician had to change the prescription for my glasses due to the significant improvement in my vision! Thank you! **Susan Crook, Scotland.***

#### **"Significant Results In The First Month"**

*I am 51 years old and I live in Fife. I started the Esperanza NeuroPeptide treatment in May 2009. I did spend many years considering and researching this treatment before making this commitment. However having made the decision and begun this remarkable sublingual spray, I wish I had started much earlier. Within an hour of my initial dose it became apparent the treatment was being beneficial! Perhaps not the miraculous transformation I may have hoped for, but a significant improvement nonetheless. My balance was improved, my legs felt steadier and my eyesight was more focussed. By the following day I was walking strongly and steadily. I am still hopeful of further improvement. **Stephen Walker, Scotland.***

## Your MS Questions Answered

This will be a regular Q&A advert brought to you by Esperanza NeuroPeptide where many questions relating to MS will be answered by Esperanza and their team of Practitioners. Please feel free to send in your questions and we will attempt to answer as many as we can in future editions of this magazine. Send your questions by email, post, telephone or through our website by using the contact details below.

**Q. Is the Esperanza NeuroPeptide for MS safe?**

**A.** Yes the Esperanza homeopathic drug is very safe. It has been tested for many years in humans with no adverse side effects. There are hundreds of patients worldwide taking the Esperanza NeuroPeptide sublingual spray daily with no side effects at all.

**Q. How is the Esperanza NeuroPeptide taken by the patient?**

**A.** The Esperanza NeuroPeptide is a once-a-day sublingual spray treatment that is very easy to self administer or for a carer to assist in the dosing. The MS patient simply sprays the Esperanza NeuroPeptide sublingually (under the tongue) at the same time daily.

**Q. Is this a cure?**

**A.** No, the treatment is not a cure, but in most cases it allows return of motor function, speech and balance.

*NOTE: For a more involved answer on what to expect after dosing with the Esperanza NeuroPeptide visit our website at [www.esperanzapeptide.net](http://www.esperanzapeptide.net)*

**Q. Will the product lessen chronic pain?**

**A.** Yes in many cases there is a noticeable decrease in pain, especially pain caused by demyelination.

**Q. Will the product help my fatigue?**

**A.** Yes in numerous cases the fatigue which so many Multiple Sclerosis patients experience goes away.

**Q. Will the treatment give me back lost function, especially balance?**

**A.** Every case is unique of course, however in many cases we have seen return of function in speech, balance, cognitive function and motor skills. The time frame of return also differs for each unique case. Return of balance is one of the major results reported by patients after using the Esperanza NeuroPeptide.

*NOTE: For a more involved answer in regards to function return please visit our website at [www.esperanzapeptide.net](http://www.esperanzapeptide.net)*

**Q. Have you any testimonials from previous patients?**

**A.** Yes indeed. Please click on the Testimonials Page and view some of the many testimonials that we receive after patients experience our treatments. For patient testimonials please visit the testimonials pages of our website at [www.esperanzapeptide.net](http://www.esperanzapeptide.net)

## ESPERANZA NEUROPEPTIDE REORDER SPECIAL SUBSIDY

### From The Desk Of Gerry Gallagher - CEO Esperanza Peptide

This is a special announcement to those who are coming up on their renewal date for the Esperanza NeuroPeptide or for those wishing to increase their stock of our NeuroPeptide.

I am pleased to announce that we have secured a small grant that we wish to use for renewals that are coming up within the next month or so.

You are receiving this special offer announcement as you currently or previously used the Esperanza NeuroPeptide.

We have recently introduced a new “per vial” reorder option that is available to you and you can order a single vial to as many vials as you require. This was introduced in order to allow those wishing to renew supplies of Esperanza NeuroPeptide to be able to do so on a need and budget basis. I enclose that option for you along with an order form if you wish to order a renewal supply on a per vial basis. **HOWEVER, please read the following first!**

### ESPERANZA NEUROPEPTIDE REORDER SPECIAL SUBSIDY

Now, I am pleased to offer you another option whereby you can take advantage of a small grant that we received and that we wish to make available to those wishing to renew their Esperanza NeuroPeptide. The grant allows us to reduce the 12 month supply for renewals to **£5,000** as opposed to the present £6,750 renewal price. It also allows us to reduce the 18-month renewal price to **£7,500** as opposed to £9,990 and the best subsidy of all is the subsidy on 24-month renewal price from £11,880 to only **£9,500**. As you can see these are substantial renewal discounts that are available.

**PLEASE NOTE ... ORDERS ARE SUBJECT TO A FIRST COME BASIS AND OBVIOUSLY THE GRANT MONEY IS LIMITED AND WE CAN ONLY ACCEPT ORDERS UNTIL THE GRANT SUBSIDY FUNDS HAVE EXPIRED ... SO DO NOT DELAY IF YOU WISH TO TAKE ADVANTAGE OF THIS EXCEPTIONAL OFFER!**

If you are interested in ordering any of the above noted grant subsidy renewal offer please call us to reserve your supply. This special renewal offer will expire **VERY QUICKLY**, so please do not hesitate if you are interested!

**PLEASE CALL ON THE FOLLOWING NUMBER:**

## **ESPERANZA NEUROPEPTIDE REORDER SPECIAL**

### **REORDER YOUR ESPERANZA NEUROPEPTIDE SUPPLY FROM A SINGLE VIAL TO 24 VIALS**

In an effort to make life a bit easier for patients wishing to reorder their supplies of Esperanza NeuroPeptide we have established a new reorder policy whereby patients can reorder supplies of the Esperanza NeuroPeptide on a per vial basis.

You can now pick and choose the supply amount that suits your needs and budget. This new policy will become available immediately and **only for patients who are reordering their supplies of Esperanza NeuroPeptide.**

**Please use the chart below to determine the price of vials and you can send in your order by using the order form enclosed.**

<b>1 Vial - £575</b>	<b>2 Vials - £1,150</b>
<b>3 Vials - £1,725</b>	<b>4 Vials - £2,300</b>
<b>5 Vials - £2,875</b>	<b>6 Vials - £3,450</b>
<b>7 Vials - £4,025</b>	<b>8 Vials - £4,600</b>

**SEE ATTACHED LETTER FOR GRANT SUBSIDY OFFER ON  
ORDERS OVER 8 VIALS!**

**12 Vial SPECIAL - £5,000**

**18 Vial SPECIAL - £7,500**

**24 Vial SPECIAL - £9,500**

**PLEASE USE THE ENCLOSED REORDER FORM**
